**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am looking forward to signing up with a competitive provider once it is available in my neighborhood. It has been deployed to other parts of Berkeley and friends and family who use their services say that they get much faster access to the internet, that service has been more efficient (and friendlier), and that the service has been cheaper than with their previous major provider.

Already, AT&T has demonstrated its greed by cutting off residential LAN phone service to our neighborhood because it wasn't lucrative enough. Consumers should not have to pay down AT&T's acquisition debts (DirectTV, CNN, HBO) by paying more for broadband. Rather, we should be able to sign up with competitive providers who have invested in developing their 5G networks.

Sincerely,

Sarah Satterlee
